

# Acetaminophen

Four unique enzymatic formulations for optimized performance in your laboratory

By offering four distinctly different enzymatic acetaminophen reagent kit formulations, Diagnostic Chemicals Limited is able to provide clinical laboratories with a method that best matches their specific instrumentation and workflow needs. While our acetaminophen reagents have been optimized for different instrument platforms, each maintains the same quality standards that you would expect from a leading supplier of enzymatic acetaminophen reagents. All four of DCL's formulations are accurate, reliable and specific for this potentially toxic compound.<sup>1</sup> All kit formats include a calibrator.

For more product related information and a recommendation for which of our acetaminophen formulations would best fit your laboratory's needs, please contact your DCL Technical Sales Representative.

## Acetaminophen

24 month shelf life at 2-8°C\*

Cat. No. 503-10      Enzymatic, Endpoint, 615 nm      3 x 10 mL + 2 x 5 mL + 2 x 25 mL

30 month shelf life at 2-8°C\*

Cat. No. 500-11      Enzymatic, Endpoint, 615 nm      3 x 10 mL + 2 x 65 mL

18 month shelf life at 2-8°C\*

Cat. No. 502-13      Enzymatic, Rate, 615 nm      1 x 40 mL + 1 x 20 mL

## Acetaminophen-SL

Dual stable liquid, ready-to-use formulation, 12 month shelf life at 2-8°C\*

Cat. No. 505-10      Enzymatic, Endpoint, 615 nm      1 x 10 mL + 2 x 10 mL

Cat. No. 505-30      Enzymatic, Endpoint, 615 nm      3 x 10 mL + 6 x 10 mL

Cat. No. 505-29      Enzymatic, Endpoint, 615 nm      3 x 10 mL + 3 x 10 mL

## Associated Products

Cat. No. SE-008      DC-Aceta-Sal Level 1 Control      6 x 3 mL

Cat. No. SE-010      DC-Aceta-Sal Level 2 Control      6 x 3 mL

Cat. No. 502-13S      Acetaminophen Standard      1 x 15 mL
